ORDER GRANTING
MOTION TO AMEND

16
17 This matter comes before the Court on plaintiff's motion to amend his complaint. This is
18 plaintiff's first request to amend his complaint. Plaintiff states that he seeks to amend his
19 complaint "to eliminate certain claims, simplify the remaining claims, and to provide greater
20 clarity between the parties to the Complaint," goals which the Court encourages. Defendants
21 have filed responses indicating that they do not oppose the proposed amendment.

22 There is no evidence of bad faith, undue delay, prejudice to the opposing party, or
23 futility.
